Dear \_\_\_\_\_

I am in my fourth and final year of a Doctor of Ministry Program at ACTS Seminaries in Langley, BC. I am writing a dissertation entitled *The God-Generated Life: Living with Christ in God through the Holy Spirit*. I have developed a 10-week course to equip others to learn to live with Christ in God through the Holy Spirit. One of the requirements for finishing my doctoral program is that I have to field-test this course. I am asking you to help me by participating in this course.

At the outset of the course, you will be asked to fill out a 40-question questionnaire to determine to what extent you are living with Christ in God. You will then participate one evening per week for 10 weeks in a 10-lesson course on cultivating life with Christ in God. During this course, you will be asked to do weekly assignments, including making journal entries that keep track of what you are feeling, thinking, desiring and doing with regard to living with Christ in God. These journal entries do not need to be handed in. After completing the course, you will be asked to fill out the same questionnaire again in a follow-up session to see what changes took place since you first filled out the questionnaire. You will be encouraged to comment on changes in writing in space that will be added to this second questionnaire. During this time, I will also provide a debriefing of the course. In early 2007, I will send you a copy of my final chapter of the dissertation that will show the results and conclusions of the project.

Any information that is obtained in connection with this study and that can be identified with you will remain confidential and will be disclosed only with your permission or as required by law. All documents will be identified only by code number and kept in a locked filing cabinet in my home. You will not be identified by name in any reports of the completed study. Any data records kept on the hard disk of my computer will not be accessible except by way of a password. The backup of this data on a floppy disk will be kept in a locked filing cabinet in my home. The data on the hard disk will only be retained during the course of the study. After that, it will be destroyed.

Your participation in this study is entirely voluntary and you may refuse to participate or withdraw from the study at any time without jeopardy. If you would like to participate, please read and sign the attached consent form and notify me no later than September 8, 2006 by email (dickmoes@shaw.ca) or by phone (604-514-9781). If you have any questions before you are able

to make your decision, please contact me. If you also like to contact my supervisor, Dr. Larry Perkins, you may do so. His contact information is included in the consent form. I look forward to hearing from you.

In Him,

Dick Moes
